Candidates must be in position of Grade 12, passionate about Heritage studies and willing to study.

### **Outcomes of the Qualification:**

This qualification helps to ensure that heritage resources within South Africa are properly conserved and promoted through a comprehensive understanding of the principles of heritage practice, both within the framework of formal institutions involved in heritage management, as well as across the informal framework of heritage development based at community level. Learners already engaged in the sector will be able to develop further competencies to assist the strengthening of their foundational heritage practice knowledge and skills within the workplace, or, through assessment, be able to be accredited for their knowledge and skills already acquired through their experience within the workplace. Those unemployed will have a platform to gain knowledge and skills.

Hope you find this in order.

Yours sincerely

Mr. L. J. Bapela
